KNOX CHURCH HOLDS ANNUAL MEETING

Each Organization Shows Balance—Church Should be Better Supported by Community

Cold weather affected the attendance at the annual meeting of Knox Presbyterian Church last Monday evening. After devotional services, the meeting was opened by Rev. Mr. John Hart, A. M. McGregor was chosen to preside over the meeting.

The reports of the various organizations for the year 1934 were read. They were deemed very satisfactory in view of present conditions, as each showed a balance on hand. The Ladies Aid reported that they had shown good progress for the year. A vote of thanks was expressed to all who had given their services to the Church in any way.

L. Whitehorn was elected to the Board of Management in the place of W. C. H. Bell, who is at present residing in B.C.

In the Session report the hope was expressed that there might be more interest shown in the Church, that it might become a greater power for good in the community.

In the deacons' report, it was stated that the church had been moved since and six had moved away. The minister had eight weddings, nine funerals and two baptisms. The amount sent to the Budget was larger than for several years.

At the close of the meeting, dietary refreshments were served by Mrs. Ladies Aid.

POULTRY BOARD PERMITS DIRECT SELLING OF EGGS

Producers of Grade A 1 eggs who comply with the requirements of the Federal Department of Agriculture egg grading regulations, and who sell their eggs direct to consumers will not be affected in any way by the adoption of the proposed Alberta Poultry Marketing Plan, under the Natural Products Marketing Act.

Producers of Grade A eggs, as specified in the Federal regulations, will also be permitted to sell direct to consumers, under the proposed poultry plan, the only requirements in the case of these producers being that they shall secure permits from the Alberta Poultry Marketing Board.

This policy towards these important sections of the poultry production industry was decided upon by the board members during a three day session in Edmonton last week.

Additional protection for the poultry producers has been created in the proposed plan in connection with this phase of production, and it is now definitely settled in the plan that the board cannot be unreasonably withheld.

In order to eliminate criticism of the manner of regulating poultry producers and the conducting of a ballot among these on the proposed marketing plan, the Federal Marketing Board at our insistence, accepted responsibility of conducting both registration and the ballot, thus relieving the Alberta Poultry Marketing Board of any suspicion of prejudice in the conduct of these two important steps.

It is anticipated the ballot will be taken in the course of the next few weeks, and in the interval adequate steps to acquaint all poultry producers with the terms of the proposed marketing plan will be taken by the A.P.M.B.

Dominion Govt. Session Opens

by F. W. Gershaw, M.P.

The final Session of the 11th Parliament was opened on January 17th with a speech from the throne by the Queen, who has granted the formal opening of British Parliaments for more than six centuries. The personal representative of His Majesty King George V came to the Hill surrounded by men-at-arms in colorful uniforms of the Canadian Guards and the Royal Horse Guards.

The scene within the Senate Chamber was one of impressive formality.

There were seen the sword and mace of the Supreme Court Judges, the brilliant uniforms of the officers of high rank in the defence forces, and the beautiful and costly gowns worn by the members of the Senate.

McFARLAND TO TAKE DELIVERY OF WHEAT?

Dispossessing wheat exports from Canada, together with an Intimation that the Canadian Government estimated imports will be reduced, has developed symptoms of "heat-sickness" on the Winnipeg market. Wheat shipped to the peg level and rumors were rife on Tuesday that the peg would be removed. However, John L. Thompson, a grain broker, said that such a move was contemplated. "The price is pegged at 80¢ for May and it will stay there," he said. "Our purchases are for May delivery and we are going to take delivery then."

This announcement will likely cause a "fluttering among the doves" if there is a big foreign "short-sell" on the market. That will make it difficult to get a firm grip on the market. This move is not to be due to the Instigation of grain exchange numbers and grain firms who want the government out of the business and wheat price at world levels.

Certainly wheat has not been moving from Canada to Europe and even the export of feed grains to the United States has slowed up. This is thus considered propitious to launch the campaign against the government's hold on the grain business.

THE FLIP OF A COIN

A Canadian romance is unfolded in The Implement and Machinery Review (Great Britain). Quoting the poet Schiller: "There is no such thing as chance." The journal reports that a Canadian who was sailing to America was staying at the port of New York, one of the passengers tossed a coin in seeking disregard of destiny was James Cockshutt, grandfather of Colonel Cockshutt, and as it was 'heads' he decided to go to Canada instead of the United States. The coin was tossed Saturday night because it had been indefinitely postponed because of the condition of the roads, when the weather becomes warmer, arrangements will be made with Mr. Campbell to speak at the joint meeting previously planned.

Mr. and Mrs. T. L. Maguire left Monday for Ottawa where they will remain for a week.

Mrs. A. Hynes and Mr. F. Rumble returned from Calgary on Tuesday as far as Bassano, and came on to the Rockies, going down the street, bent men turn their backs, the angels weep in heaven, and the devils shout, tight the door of hell to keep him out.

Consider the Cow!

If your advt. were in this space as many people would read it as are reading this. But your advt. isn't here, and people do not worry whether you are selling real estate, gasoline, peanuts or popcorn.

Did you ever sit down in the pasture with a pail between your knees and wait for a cow to back up and be milked?

Of course not. You know better than that.

Well, business is somewhat like a cow. You've got to go after it and round it up. The fellow with the milk pail between his knees may get some milk, but the odds are all in favor of the fellow who drives up the cow and feeds her.

Some kind of advertising must be done if a business is to amount to anything. Either walking or talking or writing, or printing. But the least costly, most profitable and dignified way is by the regular newspaper -- people pay for it. They value it and have faith in the advertisements in it.

FINDS MUMMY WHEAT, FAILS TO GROW

Every few months since the ancient tombs of Egypt were discovered, stories have been heard in various parts of the west of obtaining samples of "Mummy" wheat at very high prices for a few grains because it is said to bring good luck. H. G. Strange, seed expert of the Bearse Grain Co., obtained, direct from the British Museum of London, England, a sample of genuine "Mummy" wheat. This seed was 3,100 years old and had been sealed away in the tomb of King Tutankhamen when he died during the time of Caesar's conquest of England. Major Strange arranged for germination tests of this wheat with the Dominion Seed Branch Laboratories under ideal conditions. In six days, the seed sprouted and showed normal. Farmers of the west now have definite evidence that anyone professed to sell them "Mummy" wheat at high prices, which will grow, are taking money out of their pockets for nothing.

Any person interested in obtaining a photograph of spikelets and kernels of this 3,100 year old "mummy" wheat, should write to the Research Department, Bearse Grain Co., Winnipeg, —Exch.
